

NHPPA MINI “MONDAY”:

Wayne Flanagan: Night Photography

when: Sunday, March 12, 2017

time: 4-7 p.m.

where: TBD, Seacoast, NH

Want to capture beautiful images during the dark and peaceful time of day? Wayne will teach you how to set up your camera and he'll discuss items to consider when shooting at night. You will receive a night photography checklist. Wayne will also deliver an overview of what's out there to shoot at night (Milky Way, cityscapes, time lapse, moon, etc.) and tips on how to post process your captures.

Equipment list: Camera, tripod, cable release (optional for class), & headlight with red filter. Short focal length lens. 50mm lens if possible. A 24-70mm 2.8 is good as well.

For those of you who want to practice what was taught, we will head to the beach to shoot after class.

To reserve a spot contact Tracy Phillips at tracyphillipsphoto@gmail.com
or call/text 860-558-4321

Limited to 15 attendees.

Your \$10 attendance donation supports the NHPPA library.
Bring cash (exact amount) or check (payable to NHPPA).
Please provide 24 hours notice if you need to be absent
or you will need to pay the class fee.
